DIGITAL WEIGHT INDICATORS

Shown in a Nema 4 enclosure

Sterling's DW800 basic indicator utilizes the latest technology to furnish high resolution weighing. Standard features include .55" high green fiber optic back lit LCD display, selected display units, weigh and count mode and RS232 output. Available in ABS, Nema 4 and Nema 12 enclosures.

Shown in a Nema 12 enclosure

The DW810 indicator has the same basic features as the DW 800 but in addition has the capability of being an optional two scale system. Standard features also include Tare Entry and I.D. Entry as well as set points. Available in ABS, Nema 4 and Nema 12 enclosures.

Shown in a oversized Nema 12 enclosure

The Model DW810 / Batch Controller is a four ingredient batcher which will automatically sequence through four preset weights and display the total batch weight at the end of the cycle. With optional printer the DW810-BC will print time, date, ingredient weight and total weight. Time and date output is included as standard. Available in Nema 4 and Nema 12 enclosures.
