The Sterling Model-CS Crane Scale is available in 1/2, 1, or 2 ton capacities. The resolution is 5000 divisions with a 200% overload capacity. The easy to read .55” backlit LCD display and 14 hour continuous battery operation is standard with this equipment. Weighing sequences are transmitted via radio frequency. A variety of Crosby Laughlin hooks and shackles are available as options. This scale is housed in a rugged Nema 12 enclosure, and comes with a 1 year warranty.
